

Jainsy Anjirwala

Front-End Developer

j.acreatordesign@gmail.com

7698454838

Experienced Angular Developer with more than 2 years of hands-on work in developing scalable and interactive web applications. Focused on clean code, modern UI design, and delivering high-quality products on time. I thrive on turning complex challenges into simple, high-performing web experiences.

WORK EXPERIENCE

Angular Developer (Front-End Developer) SRK (SCIKEY)

12/2022 - Present

Description

- Collaborated with the R&D team to prototype and test new UI/UX features for core products. Conducted research on front-end optimization techniques to improve app performance by 25%.
- Developed reusable Angular components to support experimental project modules.
- Contributed ideas and solutions in weekly innovation sprints.
- Worked on **RFID system integration** and frontend interaction for real-time data visualization.
- Enhanced UI using modern frameworks to deliver a **clean, responsive, and accessible user experience**.
- Collaborated directly with clients to **understand business requirements and translate them into technical solutions**.
- Participated in client calls to discuss **feature enhancements, technical feasibility, and implementation timelines**.

Associate Trainee Developer SRK (SCIKEY)

07/2022 - 12/2022

Description

- Learned to understand and work with complex coding structures in real-world projects.
- Supported the development team in building and maintaining Angular components.
- Improved skills in problem-solving and debugging within large applications.

Web Developer Jemistry Info Solution LLP

01/2022 - 04/2022

Description

- Assisted in debugging, optimizing, and improving existing features.
- Collaborated with senior developers to implement responsive and user-friendly designs.
- Gained hands-on experience with modern web technologies such as **Angular**, **HTML**, **CSS**, and **JavaScript**.

EDUCATION

B.Tech

Sarvajanik College of Engineering and Technology (Information Technology)

08/2019 - 05/2022

Project

- Raining Detection Project Base on IOD.

Diploma

Government Polytechnic For Girls (Information Technology)

08/2016 - 06/2019

Project

- Doctor Appointment App

SKILLS

Angular Javascript Basic Java

Basic Sql HTML CSS

BootStrap problem solving skill

best Communication skill Node JS

React Js NextJs

PROJECTS

sending mail

- Sending mail using nodejs & express

Portfolio

- <https://new-j-a-project-k55uwgpb2-j-as-projects-215ab0e8.vercel.app/>
- above url is my portfolio created using next js technology.

pure-web - Diamond Base Company

- Quickly understood and worked with complex frontend codebases to deliver efficient, maintainable features.
- Adapted to complex existing code structures and resolved critical UI and integration issues under tight deadlines.
- Collaborated with senior developers to analyze and optimize complex application logic, ensuring smooth frontend performance.
- Demonstrated strong problem-solving by understanding and refactoring complex component logic, state management, and API integration.

pure-cc -Diamond permission Base

- Understood and worked with complex web application codebases to add new features and fix bugs efficiently.
- Collaborated with backend and design teams to integrate APIs and improve user experience.
- Enhanced code maintainability by refactoring redundant logic and optimizing Angular components.
- Contributed to responsive UI implementation using **Angular**, **Bootstrap**, and **TypeScript**.

ACHIEVEMENTS

Arcade games of Googles
